Dishti Patel

Vadodara
Gujarat, India
+91 97376 75648
dishti.271@gmail.com

Computer Science and Engineering undergraduate with interests in software development, cloud computing, and artificial intelligence. Experienced in developing technology-driven project concepts, participating in national-level innovation competitions, and contributing to technical and student-led communities. Interested in applying technical and problem-solving skills to real-world challenges.

PROJECTS

1.CloudForge · Gamified Cloud Learning Platform VIEW LIVE DEMO ·
Developing an interactive cloud-learning experience built around structured challenges and practical learning workflows, with an AWS-inspired approach to introducing cloud concepts.

2. Carbon Credits Ecosystem · Environmental Technology VIEW LIVE DEMO ·
Exploring a platform for carbon-credit monitoring and environmental verification, incorporating satellite-informed insights and geospatial data visualization.

3. PRAVAHA · E-Waste Traceability Ecosystem VIEW LIVE DEMO ·
Designing a digital ecosystem to improve e-waste tracking and recycling transparency, exploring QR-based traceability, geospatial visualization, and connected digital workflows.

4. NexTerra · AI-Powered Geospatial Intelligence Platform VIEW LIVE DEMO ·
Developing a platform conceptfocused on urbanheatmitigation and environmental risk intelligence. Exploring geospatial datasets, environmental analytics, and interactive mapping to support data-informed urban planning.

5. FASALRAKSHA · AI-Based Agricultural Solution VIEW LIVE DEMO ·
An AI-based agricultural solution exploring visual detection and monitoring of livestock and animals. It focuses on using computer vision to support animal identification, observation and smarter farm-level monitoring.

6. Triology Blog VIEW LIVE DEMO ·
A collaborative digital space built around the creative expression of three girls. Designed as a combination of blog, digital album and personal storytelling experience, it brings together memories, writing, photographs and shared experiences in an interactive format.

EDUCATION

GSFC University — B.Tech. in Computer Science and Engineering
Vadodara, Gujarat | Currently pursuing Semester 3 | CGPA: 8.38/10

CERTIFICATIONS

Python Essentials 1 — Cisco Networking Academy, via GSFC University
Python fundamentals: syntax, data types, control flow, functions and data collections. VERIFY BADGE ->

Python Essentials 2 — Cisco Networking Academy, via GSFC University
Advanced Python: modules and packages, exceptions, object-oriented programming, files and generators. VERIFY BADGE ->

Computer Hardware Basics — Cisco Networking Academy VERIFY BADGE ->
Building, repairing and upgrading PCs, preventive maintenance, laptop and mobile device functions, and safety standards.

AWS Academy Graduate: Cloud Foundations — AWS Academy VERIFY BADGE ->
AWS cloud fundamentals: core services, security, architecture and pricing.

AREAS OF INTEREST

Software Development
Artificial Intelligence & Machine Learning
Cloud Computing
Cybersecurity
Full-Stack Development

TECHNICAL SKILLS

Programming: Java, Python, JavaScript,
Web Development: HTML, CSS, React.js
Cloud & Systems: AWS, Linux, Cloud Computing
AI & Data: Machine Learning, AI Fundamentals
Tools: Git, GitHub, VS Code, Figma
Additional: UI/UX, Design, Database Management

ACHIEVEMENTS & RECOGNITION

1. IIT Roorkee – E-Summit CaseQuest
Recognised as a national-level finalist in the CaseQuest competition, representing Team Midnight Thinkers in 2025

2. Smart India Hackathon (SIH) 2025
Secured first place in the university's internal hackathon round

3. Navrachana TetraThon – Top 9 Overall
Ranked among the Top 9 teams overall and secured a Top 2 position in the AgriTech category, as the sole GSFC University representative.

4. KanadShield – Ahmedabad CyberCrime Hackathon
Earned finalist recognition in a cybersecurity-focused competition, demonstrating problem-solving and technical innovation.

5. IDEAXPLORE 2025 – 1st Place
Secured first position at IDEAXPLORE 2025, organised by STAR, for innovation and idea development.

6. EduSpark 2026 – 1st Place
Secured first position at EduSpark 2026, recognising innovation, creativity and problem-solving.

LEADERSHIP & RESPONSIBILITY

Technical Lead — AWS Student Builder Group, GSFC University
Support technical learning, cloud-computing awareness, and student community initiatives.

President — Literature Club, GSFC University
Lead club activities and student engagement, promoting communication, creativity, and collaboration.
